Summary

Senior Technical Lead with 14+ years of experience building scalable cloud-native and enterprise applications using .NET, React, Azure, and Azure. Proven track record in solution architecture, Agile leadership, system modernization, and delivering high-impact solutions across Financial Services, Payments, Insurance, and Telecom. Associate AWS Certified Solutions Architect.

Experience

03/2026 – 06/2026	Senior Technical Lead, <i>PRECISION RESOURCE GROUP (CONTRACT)</i> - Delivered enterprise modules for a leading UK-based Intellectual Property Law platform using Blazor, C#, SQL Server, RabbitMQ, and Microservices architecture. - Improved application performance by 35% through service optimization, SQL query tuning, and architectural enhancements. - Implemented RabbitMQ-based asynchronous communication, reducing processing delays by 40%. - Led Agile ceremonies, sprint planning, technical reviews, and delivery coordination. - Enhanced API security, routing, scalability, and reliability through Ocelot API Gateway implementation.	Navi Mumbai
03/2023 – 09/2025	Senior Technical Lead, V GROUP INC - Led a cross-functional team of 8 engineers delivering enterprise legal applications supporting employment law workflows. - Designed and developed scalable React applications using Redux, Context API, TypeScript, and Bootstrap. - Integrated frontend solutions with REST APIs and backend services, improving maintainability and user experience. - Conducted code reviews, mentoring sessions, technical reviews, and architecture discussions. - Collaborated with product owners, architects, QA teams, and stakeholders to deliver enterprise-grade legal solutions. - Participated in sprint planning, release management, estimation, risk assessment, and Agile delivery.	Navi Mumbai
07/2022 – 02/2023	Technical Lead, ENCORA - Led a team of 4 engineers delivering ATI Scheduling and Alerting platform enhancements. - Coordinated development activities across engineering, QA, and business teams, improving release cycle efficiency by 25%.	Navi Mumbai

- Designed scalable software components that reduced technical debt and improved maintainability.
- Participated in architecture reviews, solution design, sprint planning, and stakeholder collaboration.
- Mentored engineers and provided technical guidance throughout the SDLC.

08/2019 – 07/2022

Senior Software Engineer, LTIMINDTREE

Navi Mumbai

- Led and mentored a team of 4 engineers while delivering enterprise engineering applications.
- Improved Angular application performance by 57% using Lazy Loading, AOT compilation, and optimization techniques.
- Developed Azure Functions supporting enterprise business workflows.
- Implemented CI/CD pipelines using Azure DevOps, improving deployment reliability.
- Optimized ASP.NET MVC applications and backend services, significantly improving response times.
- Delivered internal technical training programs focused on .NET and engineering best practices.

02/2018 – 08/2019

Senior Software Engineer, CORECARD SOFTWARE

Navi Mumbai

- Developed enterprise card-processing and financial systems supporting credit program management.
- Built high-performance processing components improving system efficiency by 40%.
- Collaborated with stakeholders to deliver scalable financial technology solutions.

EARLY CAREER EXPERIENCE

2016 – 2018

Senior Software Engineer, Tata Consultancy Services

2015 – 2016

Software Engineer, S2 Infotech

2012 – 2015

Assistant System Analyst, Cedge Pvt Ltd

Key Highlights

- Contributed to the Prime Minister Insurance Program platform supporting over 6 million customer enrollments.
- Developed Visitor Management Systems, Ticketing Solutions, Workforce Management Applications, and Enterprise Web Applications.
- Participated in migration initiatives from Classic ASP to ASP.NET.
- Improved SQL Server performance, application scalability, and user experience across multiple enterprise platforms.

Education

2008 – 2011

Bachelor of Science (Computer Science), University of Mumbai

Technical Skills

Programming Languages & Frameworks — C#, .NET 8, ASP.NET Core, React, TypeScript, Python, Entity Framework Core

Architecture & Integration: — Microservices, REST APIs, RabbitMQ, Ocelot API Gateway

Infrastructure & Cloud — Cloud & Infrastructure: | Microsoft Azure, AWS, Kubernetes, Docker, Azure DevOps, CI/CD Pipelines | **Architecture & Integration:** | Distributed Systems, Event-Driven Architecture, Azure Functions

Databases & Data — SQL Server, PostgreSQL, MongoDB, Redis

Tools & Methodology — Development Practices: Agile/Scrum, SDLC, Code Reviews, Unit Testing, Performance Optimization | **Architecture & Design:** SOLID Principles, Design Patterns, Clean Architecture, CQRS, Domain-Driven Design (DDD) | **Tools & DevOps:** Git, GitHub, GitHub Actions, SonarQube, Swagger/OpenAPI | **Security & Quality:** JWT Authentication, OAuth 2.0, xUnit, NUnit

AI & GenAI: — Azure OpenAI, Semantic Kernel, OpenAI API, RAG, AI Agents, Azure AI Search

Languages

English

Hindi

Marathi

Achievements

Employee of the Year, *LTIMindtree*

Pillar of Support Award, *LTIMindtree*

Employee of the Quarter, *V Group*

Best Student of the Year, *G.B.P. Vidyalyaya*

Open Source & Developer Tools:

Published Visual Studio Code extensions on the Marketplace

Demonstrating initiative in improving developer experience through UI/UX customization tools.

- *Colors of India Themes*,
- *Year End Countdown*

Technical Content & Community Contributions:

Contributing to the developer community through technical blogs and newsletters covering C#, .NET, cloud-native architecture, and software engineering best practices via C# Corner, Medium, and LinkedIn.

Certifications

AWS Certified Solutions Architect — Associate

Issued: November 2021

.NET Full Stack Certification - LTIMindtree
